Greenwich Hospital names Diane P. Kelly as president and Marc Kosak as COO

Greenwich, CT (June 25, 2020) – Greenwich Hospital announced today that Diane P. Kelly, DNP, RN has been appointed Greenwich Hospital’s new president effective immediately. The appointment of Kelly follows the decision by Greenwich Hospital President and CEO Norman Roth to retire this Fall. The Hospital also announced that Marc Kosak has been appointed as the new chief operating officer, following Kelly’s promotion to the role of president. Kosak’s appointment will be effective on October 3.

“Diane Kelly has been an extremely effective leader throughout her career,” said Roth. “Since joining Greenwich Hospital in 2018, she has made a clear and a positive impact on the entire hospital community. Most recently, Diane has demonstrated exceptional talent in guiding the hospital through a historic pandemic. I am confident that she brings the right commitment and expertise to successfully lead Greenwich Hospital well into the future.”

Kelly has served as Greenwich Hospital’s chief operating officer since 2018. She began her career at the Berkshire Medical Center, serving in a variety of frontline nursing roles, also serving as clinical leader of the Psychiatric Unit and as vice president of Quality & Safety. She went on to serve as the chief operating officer of BMC from 2008 until she accepted the position at Greenwich Hospital a decade later.

“In Diane Kelly, we have a proven leader,” said Arthur Martinez, chair of the Greenwich Hospital Board of Directors. “In the two years that Diane has served as the COO, she has demonstrated strong strategic and implementation skills. She is well respected at the hospital and in the community. The Board looks forward to working with Diane in her new role as president of Greenwich Hospital.”

Kelly received her Doctorate in Nurse Practice from the University of San Francisco with an emphasis on executive leadership practice and population health. A graduate of Western New England College with a Master's degree in Business Administration, she earned her BS in Nursing from the University of Massachusetts at Amherst.

A member of the American College of Healthcare Executives, Kelly also holds a certification as Nurse Executive and is a member of Sigma Theta Tau International. Sigma Theta Tau membership is by invitation only to those who demonstrate excellence in scholarship and exceptional achievements in nursing.

“Diane has a proven track record in health care administration with many years of experience in direct patient care as well as in hospital operations,” said Marna P. Borgstrom, CEO of Yale New Haven Health. “She has become an intrinsic part of Yale New Haven Health and is the perfect choice to lead Greenwich Hospital out of the pandemic and into clinical growth.”

Marc Kosak has worked at Greenwich Hospital since 2004. Prior to his new appointment as chief operating officer, Kosak served as senior vice president of Operations at Greenwich Hospital since 2015. Kosak has also served as the vice president of Administration and prior to that the administrative director of Physical Medicine.

“Marc brings a wealth of experience to his new role as chief operating officer,” said Diane P. Kelly. “He is well known and exceptionally well respected here in Greenwich and across Yale New Haven Health. We are privileged to have someone with his talent on our team and I look forward to working with him as we collectively take on new challenges.”

Prior to joining Greenwich Hospital, Kosak spent 10 years working for Burke Rehabilitation Hospital in a variety of positions with increasing responsibility. Kosak is a Fellow of the American College of Healthcare Executives.

Greenwich Hospital is a member of Yale New Haven Health. Greenwich is a 206-bed regional medical center serving lower Fairfield County, Connecticut and Westchester County, New York. It is a major academic affiliate of Yale School of Medicine. Founded in 1903, Greenwich Hospital has evolved into a progressive medical center and teaching institution representing all medical specialties and offering a wide range of medical, surgical, diagnostic and wellness programs. Greenwich Hospital is recognized throughout the healthcare industry as a leader in service and patient satisfaction excellence. Greenwich Hospital has the prestigious Magnet designation from the American Nurses Credentialing Center, the nation's highest honor of nursing excellence.
